THE OVERALLS

Overalls are the uniform of prosperity.

Overalls must not, however be confounded with dress suits. Dress suits are merely the advertisement of prosperity.

Overalls are not worn much by rich people. They are confined mostly to men who are producing riches. Put a captain of industry on a desert island and at the end of year he would be a living skeleton hunting shrimps for food. But give him a thousand privates in overalls to boss and in the same time he would be loading corn for export and writing for automobile catalogues.

Overalls are made of cheap, stout material and are made to get dirty. A clean pair of overalls constitutes an indictment for laziness. Nothing looks more ridiculous than a pair of clean overalls, except perhaps a dress shirt which looks as if the owner had been working in it.

On the other hand, nothing adds to the dignity of overalls so much as grime. The more grease and grime a pair of overalls accumulates the more successful they have been in their career.

Overalls and success go hand in hand. Wherever the overall is found in an abundance there also can be found the growing crops, the advancing railroad, the soaring buildings and the roaring factories. The only parts of America still in their primeval loneliness are those unfortunate spots which have not known the beneficent and inspiring overall. It takes a dozen pairs of overalls to support a dress suit in the luxury to which it is accustomed, and there are people blind enough to think that overalls were created for this purpose.

This is the chief trouble with many countries. When the overall must devote itself to the support of dress suits, gold braid, diamond stomachers, and fur-lined overcoats it becomes sullen and indifferent and soon wears out in the seat.

The success of a government can be determined from the region of greatest wear on the overall. If this region is on the seat the government is a failure and will sooner or later be closed out below cost. If, however, the seat still endures while the rest of the garment has gone gloriously to rags, all is well with the government and the savings banks bulge with plenty.

The emblem of America should be the overall. It has made us mighty.

GAINS 40 POUNDS IN 40 DAYS. REMARKABLE RESULTS OF THE NEW TISSUE BUILDER BLOODLINE, IN MANY CASES OF RUN DOWN MEN AND WOMEN. PROVE IT YOURSELF BY BUYING A BOTTLE OF BLOODLINE NOW.

"By George, I never saw anything like the effects of that new treatment, Bloodline, for the building up of weight and lost nerve force. It acted more like a miracle than a medicine," said a well known gentleman yesterday in speaking of the revolution that had taken place in his condition. "I began to think that there was nothing on earth that could make me fat. I tried tonics, digestives, heavy eating, diets, milk, beer and almost everything else you could think of but without results."

Any man or woman who is thin can recover normal weight by the remarkable new treatment Bloodline. "I have been thin for years and began to think it was natural for me to be that way. Finally I read about the remarkable processes brought about by the use of Bloodline, so I decided to try it myself. Well, when I look at myself in the mirror now I think it is somebody else. I have put on just forty pounds during the last forty days, and never felt stronger or more 'nervy' in my life."

Bloodline is a powerful inducer to nutrition, increases cell-growth, makes perfect the assimilation of food, increases the number of blood corpuscles and as a necessary result builds up muscles, and solid healthy flesh, and rounds out the figure.

For women who can never appear stylish in anything they wear because of their thinness this remarkable treatment may prove a revelation. It is a beauty maker as well as a form builder and nerve strengthener. Bloodline cost 50 cents for the usual \$1.00 size bottles. Mail orders filled by the Bloodline Corporation, Boston, Mass.—BROWN & HAGLER, Special Agents.
